- Prevent: to stop people becoming terrorists or supporting terrorism

Enhancement courses cover a wide range of subjects designed to enhance personal development and maximise opportunities to reflect on current news stories and events, CMPs can use this and embed into their delivery as appropriate.

Vulnerabilities, Signs and Indicators

Throughout colleague training such as online CPD courses, ETF training modules and on-going updates through forums such as the Total People newsletter, Total People/MOL colleagues are trained to understand factors that may make an individual vulnerable and the signs and indicators to look for that may be a cause for concern. This training covers examples such as ...

Vulnerabilities/susceptibilities:

'A person's susceptibility to radicalisation may be linked to their vulnerability. A person can be vulnerable if they need special care, support or protection because of age, disability, risk of abuse or neglect. A person's vulnerabilities may be relevant to their susceptibility to radicalisation and to the early intervention approach that is required to divert them away from radicalisation.

In other cases, vulnerabilities may not be present or relevant to the early intervention approach required. Not all people susceptible to radicalisation will be vulnerable, and there are other circumstances, needs or other underlying factors that may make a person susceptible to radicalisation but do not constitute a vulnerability'.

Prevent Duty Guidance 2023 pg 12

'Situational risks are known issues or risks in your area or communities that means there is an increased likelihood of there being individuals who are susceptible to radicalisation. These can vary from extreme political beliefs, influential people or particular vulnerabilities or behaviours.'

Prevent Duty Toolkit Feb 2024

Factors that may make someone more susceptible to extremism and radicalisation:

It is important that all colleagues recognise factors that may contribute to someone becoming more susceptible to radicalisation and extremism. Examples of some of these include:

- Period of transition
- Social isolation
- Age / naivety
- Addiction
- Poor education
- Mental Health issues
- Developmental disorder
- Economically disadvantaged

Understanding the factors that may push someone or pull someone towards radicalisation is important, but so too is understanding that these factors can be part of anyone's daily life and do not mean someone is at risk.

Pull factors to be aware of:

- Ideological attraction
- Sense of belonging
- Charismatic recruiters
- Adventure
- Romance
- Excitement
- Liking violence
- Rebellion
- Ego
- Sense of mission

Push factors:

- Racism
- Poverty
- Alienation
- Humiliation
- Sense of belonging
- Sense of mission
- Charismatic recruiters
- Trauma
- Injustice
- Ideological attraction

Possible signs & indicators:

- Depressed / withdrawn / isolated
- Feeling under threat
- Being influenced or controlled by a group
- Desire for political or moral change
- Need for identity, sense of meaning / belonging
- Mental Health issues
- A desire for status / a need to dominate others and control
- Change of appearance
- Feelings of injustice

These are possible signs to consider, it is not an exhaustive list, and people may reflect many of or all these signs but not be at risk.

Referral process:

All Total People/MOL colleagues, employers and subcontractors have a duty of care to share their concerns.

Anyone can raise an apprentice/learner concern – a member of staff, an employer, a parent, the apprentice/ learner – for themselves or someone else.

CPOMS

All Total People (live on PICS) are on CPOMS and for these learners' colleagues report incidents / information / concerns directly via CPOMS. (All colleagues are trained to report via CPOMS).

Prevent Policy

For more information, our CPOMS our process and guides can be found on the Hub. See links below.

[TPL018- CPOMS-Student Import Process-Total People](#)

[TPL030-CPOMS-Logging in to Total People CPOMS](#)

[TPL031 -CPOMS-Adding an incident responding to actions](#)

For any external reports or where a learner is not yet on CPOMS (prior to enrolment & MOL initial concerns) incidents / information / concerns will be submitted via our concern record on the Total People website.

Visit the **Total People website**, click **About** and select **Safeguarding** then select **Report a Concern**:

<https://www.totalpeople.co.uk/about/safeguarding/report-a-concern/>

If a concern is raised to a Total People member of staff and the concern indicates at risk of immediate harm. Then action must be taken immediately, and a member of the safeguarding team contacted (see key safeguarding contacts) **The Safeguarding concern record must be completed as soon as it is safe to do so.**

The Designated Safeguarding Lead will be responsible for ensuring all relevant external agencies have been contacted. A referral for a high-risk concern will be made on the same day.

Where a concern is raised about an apprentice/learner and the apprentice/learner is identified as not being at immediate risk then a Safeguarding concern record should be completed **as soon as possible (as soon as is safe to do so).**

There must be no delay in relation to the completion and submission of a Safeguarding concern record by a member of Total People.

Total People's safeguarding policy and procedure for reporting concerns will be shared with apprentices/learners and employers as part of induction and throughout their programme.

Criminal convictions:

Learners are asked for a criminal record disclosure (disclosure of any unspent criminal convictions) as part of the application and enrolment process at Total People.

Where an unspent criminal conviction has been disclosed a risk assessment will be completed before a decision is made and documented about the learner commencing training with Total People. This will be completed by the relevant sector with support as required from the Safeguarding team. Contributions from relevant external agencies will be documented as part of this risk assessment. This risk assessment must be approved and signed off by the safeguarding and EDI lead or Head of Learner Experience before a learner can commence training with Total People, this is to ensure a safe and inclusive environment for all.

As an additional check the start is only processed by Learner Records if the Safeguarding team confirm there is a current risk assessment completed.

A copy of the risk assessment and any associated actions will be held on the learners CPOMS record.

Risk assessments are used to ensure any potential risks are mitigated for the safety, well-being, and inclusivity of all learners, including the learner with the unspent conviction. The DSL and Head of

Learner Experience work with the Curriculum Performance managers to manage this risk and hold the information securely on CPOMS.

The collection and storage of this sensitive information is covered by an LTE Data Protection Impact Assessment (led by DPOs and including all relevant people across relevant business units).

Concerns about staff or employers:

Where a concern is about a Total People colleague (including any low level concerns / relevant information) then this will be reported to our HR Business Partner Sophie England using the Total People HR email staffsafeguarding@totalpeople.co.uk. The Total People HR Manager will link in with the relevant member of the Safeguarding Team as required.

If the concern was relating to HR then this would be reported directly to the Deputy MD GSteele@totalpeople.co.uk.

External Speakers & Events:

External speakers and events at Total People/MOL are subject to a risk assessment before they can be approved and will not go ahead if any risk cannot be mitigated. Information sharing on a need to-know basis with other institutions and education providers will take place if appropriate and legal under GDPR. The risk assessment is completed by the person / people arranging the event and must be approved by Total People's Safeguarding Team before the visit / speaker can be confirmed. The [External Speaker Organisation Event and Literature Procedure.docx \(sharepoint.com\)](#) must be followed by all Total People/MOL colleagues. This must also be shared with the relevant external speaker/organisation / guest. The LTE group risk level matrix (LTE group policy appendix 2) and external speaker checklist (appendix 1) will be completed by the relevant manager, approved by the DSL and held centrally.

Channel and Escalation:

Where the safeguarding procedure has been followed and needs escalating further, then this could possibly result in the DSL of Total People contacting the local Counter Terrorism Unit or Channel. Channel provides a multi-agency approach to early support. Through Channel individuals at risk are identified, the risk assessed, and a plan of support developed. Consent is not required to make a referral to Channel but consent from the individual is required to be able to provide and implement a support plan. Total People/MOL will not hesitate to make a Channel referral where it is deemed appropriate and will work with all agencies involved to implement the support plan.

Total People's risk guide can assist with the managing of the risk level along with seeking advice from the DSL who is 'available' alongside the DDSs.

Continuous Improvement:

Please refer to the Total People Safeguarding Policy. In addition to this Total People's Prevent Risk Assessment and bi-annual review contributes to the on-going evaluation and improvement of practice.

Signatures & Review:

This Policy will be published on Total People's internal Hub, the Total People website and links made in the colleague induction e-booklet, as well as the commitment statement that is completed with employers at the start of programme.

This policy will be updated annually as a minimum.
